FOREWORD

One day in June a hush will fall.
The footsteps and laughter and voices
of each and every one of us will echo
down the halls--and then die away.
Gone forever will be the fun we had
and the friends we made.

And as we, the seniors disembark,
we leave behind us a token, which will
--in time--be priceless to all. Yes,
here is the story as we have lived it
--"rowing, not drifting" through the
happiest years of our lives.

There will come a time in life when years will have dimmed memories and hushed echos; dimmed the memories of school life and hushed the echos of once familiar voices.

There will come another time when we will slip from reality and life's busy cares, and far back in our memories we will recall these days at Montevideo. For not until then will we realize the importance and appreciate ultimately what was done here which pointed toward success.

But even now, we realize that there had to be someone behind us to keep the boat going, to steer clear of obstacles. There had to be someone who had been around that next bend and knew what lurked ahead.

D E D I C A T I O N

There had to be someone with a steady hand when tempers flared, someone to lead our entertainment and keep the old river boat rocking with fun and laughter and excitement.

Now upon reaching our destination and before disembarking, we, the seniors of this high school, extend our hand and offer gratitude to those who have served us so well--especially the two who were with us on most of our voyage.

The honest friendship and clear-visioned ideals of Mr. Don Glick and Miss Mary O. Miller helped keep our course straight and steady. Their interest in our class was often shown. To them with a feeling of deepest sincerity, we dedicate this, our 1955 PEAK.

A DAY AT

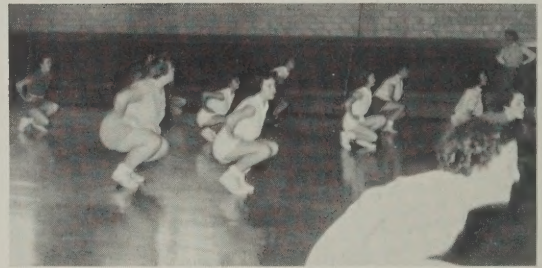

Off the buses we get, though slow,

To our lockers now, we must go.

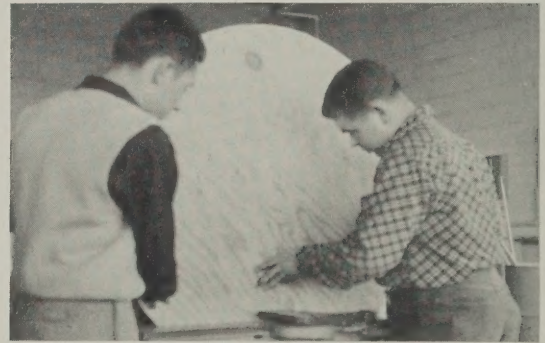

First to Phys. Ed. class to play,

And get daily exercises if we may.

Industrial Arts can be fun.

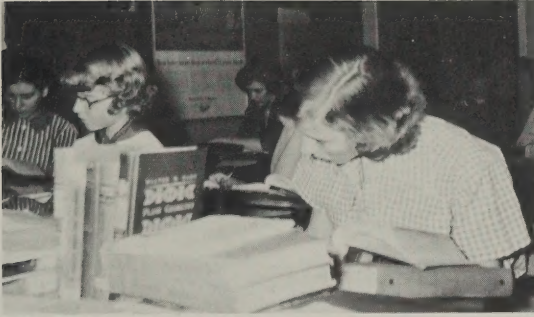

If first the machines you learn to run.

Lunch time now it must be,
The only time we have free.

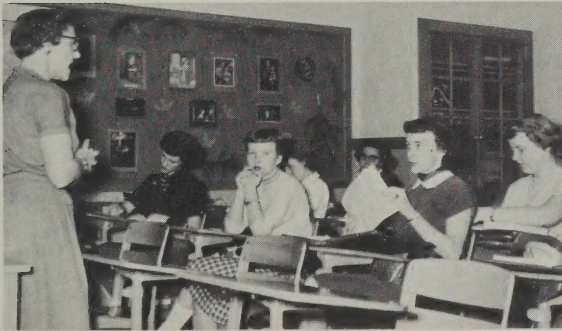

MONTEVIDEO

Now to Algebra class we must go,

Then to Home Ec. to learn to sew.

In Government, we learn a lot,

Then on to Science we must trot.

In Art class, eighth graders we see,

Then to our lockers shouting with glee.

The final bell is about to sound,
Then to the buses we'll be bound.

THE PEAK

THE PEAK IN PRODUCTION

ADMINISTRATION

Mr. Boyd J. Glick, Prin.

A MESSAGE FROM MR. GLICK...

MONTEVIDEO HIGH SCHOOL
Boyd J. Glick, Principal
Penn Laird, Virginia
1 May 1955

Dear Seniors,

You are nearing another milestone in your life. You have lived long enough to learn that the easy way, the course of least resistance, usually results in meager achievement and little progress.

Whatever adventure one takes or undertaking one pursues, courage and determination are needed to carry through on the project.

Your motto is, "Rowing, not drifting." Rowing is not easy. The best crews work long and tirelessly to master the technique of the winning pull.

A school takes pride in the achievements of its graduates. It is a fine thing to see one set his course, dip the oar, give the strong, long pull--then successful and safe landing.

Happy journey to you.

Sincerely yours,

Boyd J. Glick
